

## 6<sup>th</sup> Russbach Workshop on Nuclear Astrophysics

---

### Third Circular

Dear colleagues,

we first want to confirm the receipt of all registration forms. Right now, we have 40 participants in the workshop. Hence, we still have a few vacancies for late registrations.

Please, find the near-final program in the attachment. In case you want to propose changes and / or additions, do contact us as soon as possible.

Concerning arrival on Sunday, March 1 (or Saturday, Feb. 28) and departure on Saturday, March 7, we propose to have a look into the following web-pages, which will provide information about the time tables of trains and / or busses between Salzburg -- Golling-Abtenau -- Russbach am Pass Gschütt, bus stop Gseng:  
[www.oebb.at](http://www.oebb.at)  
[www.postbus.at](http://www.postbus.at)  
[www.dachstein.net](http://www.dachstein.net)

We would suggest the following procedure:

- a) take the bus from Salzburg Airport to Salzburg main railway station (Hbf);
- b) take the train from Salzburg Hbf to Golling-Abtenau;
- c) take the "Postbus" from Golling Bahnhof to Russbach am Pass Gschütt, stop Gseng
- d) come with your luggage to the nearby Gasthof Schönblick at the right side of the road for registration.

In case you will reach Golling later than 17:40, when the last bus to Russbach leaves, call Gasthof Schönblick (+43/6242 221) about half an hour before arrival in Golling, or take a taxi.

For those who plan to come by car, have a look into
